

Greetings,

Thank you for contacting Sanford Clinic regarding weight loss surgery. Millions of people struggle with weight loss. If you've tried dieting, portion control and an exercise program, but still can't get results, surgery can provide an excellent alternative for sustained weight control.

When thinking about weight loss surgery, there are many different kinds to consider. At Sanford Health we perform both gastric bypass and sleeve gastrectomy, both vary in how they are performed, their recovery time and who is best suited for them. You can review these differences online at bismarck.sanfordhealth.org/weightlossurgery.

The process to be considered for weight loss surgery is lengthy and can be complicated. It is always a good idea to find out what your insurance company will and will not cover regarding weight loss surgery. We recommend you contact your insurance company and ask if your policy has benefits for weight loss surgery. The basic requirements are: BMI of 40 or above; BMI of 35-39 with a health problems related to obesity that are treated but not controlled. Once you know if you're covered you can begin the process.

- **Attend an online information session-----**

These are held the 2nd Tuesday of every month at 4-5 pm. CST

- Register by calling 701-323-5300 OR online at Sanfordhealth.org > search weight loss surgery, then click on the Bismarck page. When you have registered you will get an e-mail from WEBEX for the meeting. A reminder for the meeting with the WEBEX link will be again sent on the date of the session.

- Get a referral for bariatric surgery from your primary care provider if you have not already.
- In order for us to determine if you fit your insurance companies medical policy guidelines to receive weight loss surgery we need the following:

The completed questionnaire this will be mailed to you when you register for information session and at least 3 years of your medical records. We will gladly fax the enclosed medical records disclosure forms but they need to be complete and include at least a phone number of the facility.

If all your records are through Sanford we do not need disclosure forms.

Nurse coordinator will contact you after review of your records. You will not be scheduled for a consult appointment with the surgeon until you have attended an information session and returned all paperwork. Nurse coordinator will help you schedule for a psychological evaluation (do not schedule your own) and all required appointments.

We know that this is a long and involved process, but we encourage you not to become frustrated. These are necessary steps to ensure the safety and long-term success of your procedure. Plus, you will have the rest of your life to enjoy the benefits.

Thank you for choosing Sanford Health Bismarck. We hope to see you at our upcoming informational session. If you have any questions, you may reach me at (701) 323-5530.

Sincerely,

Alicia H, RN, BSN

Bismarck Weight Loss Surgery Questionnaire Packet

Greetings,

If you would like to get started with the surgery approval process, here are the steps you need to take:

- Check with your insurance company to make sure your policy covers the procedure. When you talk to them, ask about your policy specifically.
- Complete the patient information booklet, the paper with insurance information and the consent to this clinic.
- Please give the completed and signed information release forms to your primary care doctor's office, and instruct them to send your medical records to our office.
- Returning the release to this clinic will slow the process. Generally we require at least three years of records. I will contact you if more are required.
- If you are sure you meet the criteria for surgery, you will want to consider getting your psych evaluation done. If you are unsure if you qualify, please call me so we can review the information in your packet.
- If your records are with Sanford Health, please enclose a note mentioning your doctor's name with your paperwork so your records can be found.
- If you do not complete this packet prior to your information session, please fill it out and mail it to our office. It seems like a long process, but it goes quite smoothly. The longest process to complete is the record release and psych evaluations. These are all necessary to the process.

Call us if you have any questions or need help getting through this process.

Sincerely,

Sanford Bismarck Bariatric Team

How many years have you been obese? _____

Please be specific with when you were on the plan, how much weight you lost and how much gained.

The last 3-5 years are most important.

Bismarck Weight Loss Surgery Questionnaire Packet

Epworth Sleepiness Scale

This questionnaire will help your physician to measure your general level of daytime sleepiness.

Name: _____ Date of birth: _____ Date: _____

How likely are you to doze off or fall asleep in the situations described below, in contrast to feeling just tired?

This refers to your usual way of life in recent times.

Even if you haven't done some of these things recently, try to work out how they would have affected you.

Use the following scale to choose the *most appropriate number* for each situation:

0 = would never doze
1 = slight chance of dozing
2 = moderate chance of dozing
3 = high chance of dozing

SITUATION	CHANCE OF DOZING			
Sitting and reading	0	1	2	3
Watching TV	0	1	2	3
Sitting, inactive in a public place (e.g. a theater or a meeting)	0	1	2	3
As a passenger in a car for an hour without a break	0	1	2	3
Lying down to rest in the afternoon when circumstances permit	0	1	2	3
Sitting and talking to someone	0	1	2	3
Sitting quietly after a lunch without alcohol	0	1	2	3
In a car, while stopped for a few minutes in traffic	0	1	2	3
